

“So what's your final thoughts, you wanna take it?”

“Uuugh I mean I don't know, I don't know. How big could I get?”

“Probably just a couple cup sizes, enough to stand out but nothing crazy right? I know you've always thought you'd look better with huge tits!”

“... uuuuuuugh ... Ok. Ok let's do it give it to me”

Somewhere, sometime in the near future, an innocent 18 year old girl drinks a shot glass sized amount of a slightly milky fluid. ‘5”5, a little chubby, with mid length black hair, and an average ass she's not much to look at. Her tits already measure to hefty DD's, but on her wide frame they don't seem too big.

The next day

“Why do my tits already feel so swollen already? I didn't take too much did I? AAAGH I feel WEIRD!”

“Hey hey baby calm down it's gonna be ok, don't worry. I mean how are they gonna grow unless they swell up like that? The stuffs just doing its job”

“Uugh. Yeah, you're right. Fuck I'm horny. I'm never this horny... Are you sure it's not gonna be that much?”

Three weeks later

“OH. MY GOD. FUCK. YES”

The girl shrieks at the top of her lungs. The boy pounds into her from below, and she rides him like her life depends on it. Her hips are significantly wider than her shoulders and the ass they support would fulfill many a man's wildest sexual fantasy.

Her JJ-cup tits bounce wildly as she's slammed over and over from below, ecstasy filling her body to an almost unbearable point. As she orgasms though she goes silent, overcome with a euphoria too great to vocalize, she simply twitches and spasms while her pussy milks her boyfriend for every drop he's got. As she comes down, trapped in an endless cycle of unbearable horniness, she thinks “Oh fuck, this is so fucking hot. Fuck”. She reaches up and squeezes the fat, pink nipple on one of her massive tits and moans, ready to go again.

Six weeks later

Completely nonverbal now, She simply gasps and twitches as she's pounded mercilessly from behind by her bewildered boyfriend. Only a few months later she's now overcome by a mindless cocklust, her tits the size of exercise balls, and hip and ass that consume him from the legs down.

He is fairly certain at this point that the guy who sold him that stuff had said “take 10 milliliters” not “this’s 10 milliliters”. How was he supposed to know what a milliliter was?

As her perfect, soft, gargantuan breasts jiggle with wild abandon, and he wraps his arms around her massive ass, he is very content with the amount of growth she's experienced. As her eyes roll up into their sockets and high pitched sounds of pure animal pleasure escape her, hes sure shes satisfied as well.
