When Sue and Dom arrived at the gym in the morning, they were quite happy that nobody was there to bother them. Dom was quite a strong man that drew the stares from women of the gym and that made Sue a bit jealous and insecure. She knows Dom loves her, but she really wishes she could be more developed. Nature wasn't so kind to her, so at least, she tried to be strong like Dom. Grabbing the lightest bar in the gym, Sue wanted to lift at least 60lbs on her own.

"If Dom can curl 45lb with one arm, I should be able to lift 60lbs using both of my arms, right?" Sue said, gritting her teeth as she did her best to lift the bar with her thin arms.

Unfortunately, the peace and quiet of the training couple was interrupted as Kim and Jane arrived. Kim was a big bully that always made fun of how weak Sue was, while Jane was a bitch that always tried to steal Dom from her, no mattering how many times he turned her down.

"Oh my... how adorable little Sue is trying to lift such a heavy bar. Be careful little girl, you could end up hurting your growth" Jane laughed. "Kim, why not show her how a 'real' woman lifts weight while I have a chat with Dom. I outgrew this top a few months ago so it's perfect to show how big my tits have become. Even my nipples can be seen" she laughed walking toward Dom, enjoying how Sue looked at her with burning envy.

"You are so mean, Jane. Don't you see Sue is trying to build muscle" Kim said. "Don't listen to her Sue. You can do it. You may not believe it, but I started lifting with a similar weight set" Kim said as she started to pile 3 plates of 45 lbs on each side of the weightlifting bar.

"Really? Perhaps I could be as strong as you someday" Sue smiled suddenly feeling inspired.

"I wouldn't be so optimistic" Kim grinned, lifting the heavy bar. "I was like 8 years old when I lifted 60lbs. Right now, this 315lbs bar..." she said, holding the bar with one hand and lifting it over her head. "... only serves me for a warm up" she grinned, flexing her free arm to show off her rock hard bicep.

"Hello Dom. Have you gotten bored of sticking with Sue while she shops in the kids section? If you are free later, perhaps you can join me to buy a new bigger bra. As you can see, I desperately need a new one to hold these massive tits of mine" Jane said quite seductively.

Even though she was quite humiliated by Kim, hearing how Jane was flirting with Dom loud enough for her to hear made her blood boil. "Bitch!" Sue muttered between her teeth as her hate and anger fueled her determination and she kept lifting the heavy bar.

"I'm sorry Jane. I have told you before. I'm not interested" Dom said, concentrating on his curls.

"Are you sure Dom? Perhaps you aren't a breast man, but a butt man. It's hard to tell since Sue is so plain in both ends" Jane chuckled while turning around to let Dom watch her ample derriere. "You can see how wonderful doing squats has been for me. This ass can break concrete. If you are good enough, I may let you spank me if that is what you want"

"That bitch! I'm going to kill her!" Sue said dropping the bar, but found herself immobilized as Kim grabbed her head with her free hand to keep her in place without much effort.

"Now, now... relax a bit Sue. Jane is only being friendly. If you trust Dom, you don't have to worry, unless of course, you aren't so secure in your female charms to keep him" Kim said while placing her weight bar on the floor. Unlike Sue, she did it slowly as she didn't want to crack the floor. It's quite problematic to pay for things she damaged for not controlling her own strength.

"Well, not everyone can be lucky enough to get the right genes to be a fucking asian amazon with super muscles" Sue said spitting venom with every word. She was tired of being bullied.

"That is partially true. Indeed, you can't do much in the gene department, but my muscles are the result of hours of hard work. They were sculpted into a granite rock-like appearance by my effort and sweat. I didn't stop lifting until I got my muscles as big and strong as I wanted them. Do you see this abs? They are even bigger than those mosquitos bites stuffed in your bra.

"You are such a bully Kim. I hate you" Sue said, throwing a punch against Kim's absurdly well-defined abs. As soon as she did it, she regretted it as it was like hitting a reinforced wall.

"Oh my...." Kim laughed out loud. "Is that everything you got? I have felt breezes stronger than that brushing my abs. You are so weak Sue. I can't imagine what Dom sees in you" Kim chuckled. "Just give up Sue. If you really care about Dom, let him be with a woman that could satisfy his needs. Not with a little girl that can't even fill a training bra" she grinned.

In that moment, Sue channeled all her anger, frustration, insecurities and hate into her right fist. Then, without thinking how much it would hurt her, she launched another punch toward Kim's abs of steel. But this time, Kim didn't laugh. "Oh crap! I felt that" Kim said, surprised.

"I feel it too, but it wasn't like before. This one felt GOOD!!" Sue moaned, closing her eyes, sensing how every fiber in her body lighted up like a Christmas tree. She quickly tensed her arms and legs and felt her muscles pulsating. "It feels like I'm doing push ups, squats, and lifting all at once, but ten times fold!!!!" she cried feeling an energy flowing pouring into her.

"What? What is happening to you?" Kim said afraid as she noticed Sue was growing in front of her eyes. No, not only growing. Was she getting stronger too?. She blinked her eyes several times but there was no denial. The little Sue was almost as tall as her breasts, and Sue's muscles started to show up. Not as big as hers, but they were definitely getting bulkier.

"I don't know, but I love it!!" Sue moaned, enjoying how her bones were stretching. Whatever that energy was, it made her body grow like a weed. Then, her non existence muscles bulked up and got the definition and size she had always wanted. Still, she sensed there was more, so much energy flowing into her. Improving her more and more.

"This is impossible. Only Jane is at my tits level and she is 6'3" tall" Kim said quite alarmed.

The last remark made Sue open her eyes. A second later, she gasped, noticing she was looking at Kim's neck and her vision continued shifting. Taking a good look at Kim, Sue quickly understood where her growth was coming from. That mysterious energy that was filling her up.

"Oh Kim, I'm not that tall," Sue giggled. "It's true that I'm growing but you are also shrinking"

"What?!" Kim said in horror as she turned her head around and gasped to see everything slowly getting bigger. The world around her was expanding... no. It was her who was shrinking.

"And you are shrinking in more ways than one" Sue said pointing at Kim's arms as she had them flexed while her fists were resting on her sides. "It seems that there is a karma or poetic justice after all. You have made so much fun of me, well, laugh now that our roles are reversing"

"This can't be real. This is a nightmare" Kim said, quite scared as Sue was almost as tall as her.

"I'm sorry Kim. This is quite real. Now, be a good girl and give me more of you" Kim said as she closed her eyes trying to grasp the energy flow between them. Once she did, she gave it a great pull drawing more of Kim's essence into her body. "OH YES!!" she moaned.

As her body continued growing, Sue felt other changes happening in her body. She felt her sports bra and shorts getting quite tight on her. The expanding material was doing wonders to properly handle the increasing girth of her body, but there was more than just her body growing inches vertically. She could feel herself adding inches horizontally in all the right places.

"I can't believe it. I'm growing tits!" Sue said as she felt the increasing weight on her chest. "Or better say, I'm growing 'your' tits" she grinned as Kim looked down at herself and saw her large breasts start to dwindle.

"Oh no! My height and muscles aren't enough. Now, you are going after my tits!" Kim said. Then, she felt something weird as her shorts felt a bit loose for a moment. She looked down and saw how her hips and butt were receding back. "What?! You are taking my lower curves too"

"It was you who said I couldn't do much in the gene department. I guess, I'm taking your genes to compensate," Sue purred as she felt her hips getting wider and her butt was swelling filling out her shorts quite nicely. "Buns of steel baby!" Sue grinned, enjoying how her body was finally blooming. The fact that she was taking Kim's maturity to do it made it all the better.

Powerless, Kim only watched how Sue kept growing and growing before her. She felt her strength being drained from her. She flexed her arm forcing her bicep to remain big and hard, but no matter how hard she flexed, her biceps continued decreasing until totally disappeared.

For Sue, seeing her former bully being stripped of all traces of maturity was incredible. The elastic material of Kim's sports bra had made the fabric slack over her plain chest. The same for the shorts as Kim's hips and butt had become as small as hers had been. But as good as her transformation had felt, still, there was one more surprise for both of them.

"This is amazing!" Sue said as her skin changed its pigmentation as face's features shifted. Looking at Kim, Sue knew what was going on. "It seems I'm acquiring your ethnic too. Now, you are the little caucasian girl I used to be, while I got to be the asian amazon with super muscles, ah?" Sue said, thrusting out her bigger curves while flexing her muscles. It was a pose Kim used a lot to tease her, so she used it as revenge.

"My body. You got my body!" Kim said, after noticing how pale her skin was.

"That's right! I got it. Now I understand why you were such a bully. The confidence this body gives me is amazing! I feel so powerful!!" Sue grinned.

"No. This can't be me. Where are my muscles?" Kim sobbed watching the image of a petite white girl flexing her skinny arms reflected in the mirror. Not even a shadow of her former self

"Sorry to leave you Kim, but I have a fat cow to milk" Sue said, focusing on Jane. "This should be fun. Let's hope that whatever superior power that gave me your traits is still working on me"

"... and that is one of the many reasons we should hang out together, Dom. You are losing your time with Sue. A man like you needs a woman that not only can satisfy his needs, but also that fires them up. Can you really look at me and say that these tits don't give you a hard on?"

"I... I..." Dom muttered trying his best to articulate his words.

"Yeah. My tits have that effect on men" Jane said, thrusting her chest forward. "Look at them all you want, big boy. If you play your cards well, you could play with them all night" she flirted.

Unknown to Jane, the reason Dom was left speechless is that a woman dressed like Sue stood behind her. Even though she looked so big, strong and sexy, Dom knew that woman was Sue.

Sue stood and placed one finger over her lips, letting Dom know to keep silent of her presence.

"It will be better if you just leave Jane. I won't ever cheat on Sue" Dom said, making Sue smile.

"Are you blind or something? I'm here offering you the opportunity to get your hands over all of this and you are not going to take it?" Jane said quite angrily as she passed her hands over her ample cleavage. "Forget about Sue. Her undeveloped body is no match for my womanly one."

"It's not about how curvaceous you are. I love Sue for the woman she is inside"

"Deep inside perhaps. But with me, everything is on the outside. This double J-cup sport bra can't hold these babies anymore. You can even see my nipples peeking out. These are bigger than Sue's head and they are so sensitive. I just can orgasm by playing with my nipples" Jane said quite confidently while placing her hands on her waist.

"Is that so?" Sue grinned "Perhaps I should try them for myself," she said, channelizing toward her hand all the frustrations and insecurities Jane caused on her before touching her.

"Fuck off Sue. The adults are talking" Jane said. She turned around just to dismiss little Sue, but instead of seeing her, she found herself staring at a pair of breasts in front of her. "Kim?" Jane said, puzzled as Kim was the only woman whose breasts were at her eye level.

"Sorry to disappoint you, but it's just the old me... or I should say, the new me" Sue grinned.

Jane stepped back and gasped upon recognizing Sue's outfit and her voice as she talked, but the rest was totally different. "What the hell? How did you get so big and strong?" she asked.

"As you can see, Kim was very generous with me. After making fun of me for so long, she decided to lend me her greatest strengths and as you can see, we have trade roles" Sue said, pointing at the tiny skinny Kim that was still looking at her reflection.

"This can't be me. This can't be me. This can't be me" Kim repeated over and over again.

"You monster! What did you do to Kim?!" Jane replied furiously. Then, she gasped as Sue's breasts seemed bigger. She watched them and without doubt, they were slowly growing.

"Me? Nothing. It seems Karma does exist and decided to punish Kim for mocking and bullying me for so long. And the way I see, it is your turn to make amends" Sue moaned as she could feel Jane's essence flowing into her body and reshaping it into a more voluptuous form.

Jane watched in shock how the now amazon Sue was not only getting bustier, but she was also getting taller. Even her muscles were getting bigger and harder. "Where are those...?" Jane was about to ask when she recalled Sue's words about being her turn. Quite scared, she looked down at herself and she couldn't avoid screaming in horror at the sight of her impressive cleavage starting to collapse on its own. "My breasts!! You are stealing my breasts!!" she yelled.

"I'm not stealing them. They are just compensation for all the times you made me feel like a little girl. Well, let's see how you deal with being an adult trapped in an undeveloped body" Sue moaned cupping her enlarging breasts and feeling the increasing weight the extra size carried.

"This is not fair! Those are my breasts! Give them back!" Jane said, throwing a tantrum.

"It seems you are turning into a little girl mentally too!" Sue smiled as she felt her ass expanding.

"I'm not a little girl! You are!!" Jane said trying to punch Sue in the guts, but stopped herself when her fist was about to hit Sue's sex. "You... You are growing!!" Jane muttered as she was now looking at Sue's abs rather than her breasts.

"Oh! So you finally noticed it!" Sue purred feeling her body blossoming. "You and Kim have spent so much time tormenting me, that as a punishment you are given the kind of body you have made fun of all this time. Of course, the extra mass you are losing should go somewhere else and I'm more than glad to receive it!" Sue smiled as she noticed just in time how Jane's eye watched astonished how her hips were getting wider and her ass just filled out obscenely her shorts before her breasts grew so big that blocked her vision on the diminishing bitch.

"You big bully! Give me my titties and ass!!" Jane said punching Sue's thighs as their height difference kept increasing. "I'm supposed to be a sexy woman. Not you!" she cried.

"Your curves will be so much better on me" Sue said as her hourglass shape was turning quite breathtaking. "They are making my body so much sexier and so more womanly" she moaned ashamed at the intense emotions she was experiencing. "Oh please Jane. Give me more!"

Jane gasped as she felt the draining sensation intensifying on her. She could see how everything around her was getting bigger. She shook her head as the world wasn't growing but rather, she was shrinking. Her once impressive breasts were receded to average large bra sizes and still deflating. "No. No. This is a nightmare. This can't be true!" Jane panicked.

"Kim said the same and you can see how small and weak she became, just like I was" Sue grinned as her hands couldn't no longer cupped her growing breasts properly. "These tits are more than a handful and still you have plenty to share" she moaned, feeling how her breasts were stretching her sports bra to its limits. It wasn't designed to hold such an enormous rack. "But don't worry about Kim, very soon, you will join her in the Itty Bitty Titty committee" she laughed, outgrowing Jane's former size, grinned due how enormous her rack was becoming.

"No. I won't let you take them" Jane said, running toward the exit. On her way out, she grabbed Kim's hand. The sadness in Kim's face was evident. "Let's get out of here!" she yelled before a strong drain hit her. Her body suddenly imploded inwards. Still, Jane didn't want to acknowledge what meant that her sports bra hung loose on her chest. She needed to get away.

"Too late. My body has already fed on everything you could offer" Sue grinned as her hands did their best to cope with how massive and round the flesh orbs in her chest had become.

"I wouldn't have believed it if I hadn't seen it with my own eye. Are you really Sue?" Dom asked totally in awe to see at the love of his life had become into a voluptuous amazon

"Yes babe. It's really me" Sue smiled as Dom disappeared from her sight as he hugged her small tight waist. She feared for a moment that all the muscle she obtained from Kim and Jane would have hardened her body too much, but she smiled as Dom's strong arms around her felt as good if not even better than before. Of course, she bit her lips as she felt Dom's head rubbing the underside of her new breasts. She never was so little compared to Dom,

"But how? What happened between you and those women" Dom asked, confused.

"I don't know. I just felt all this rage and frustration inside me and the next thing I knew I was absorbing Kim's attribute. I got her size, muscle, curves and even ethnicity, leaving her looking as small and plain as I used to be" Sue said. "Then, the same happened with Jane. I got her voluptuous curves on top of Kim's ones along with her muscles and height reducing her to how I looked before" Sue said as she felt her hair growing longer. "And I think I got her long hair too"

"You have always been quite insecure, Sue. You shouldn't have let those women get under your skin. At least, you seem to be alright" Dom said, stepping back.

"I'm more than alright babe. I have become so sexy and powerful" Sue said, enjoying how her body made her feel. "But how about you Dom? Do you like the new me?" she asked posing sexily for him, but then, she gasped to realize she barely could see him due to her massive boobs. "Oops! Let me get back to the way we used to be" Sue grinned as she knelt down. Then, she gasped as even though she got on her knees, she was still taller than Dom. "Oh my... I think I got too big. Please Dom, don't hate me. I know you love the small me, but I wanted to be bigger for you. Do you think you can still love me? I'm not a monster am I?" Sue asked, afraid.

"Baby. You have always been a beautiful girl. To me, it doesn't matter if you are big or small. I love you for who you are" Dom said, approaching her. "Now, I won't deny you look fantastic and if you are bigger than me, it means more of you for me to love. Especially these" Dom said, feeling Sue's round tits. "It can hardly wait to work out using these medicine balls" he grinned.

"Oh fuck Dom!" Sue moaned, biting her lower lips. "Jane didn't lie when she said she was quite sensitive. "I feel I can orgasm just by having you touch me tits" she said, feeling her muscular body start to heat up. "Oh yes! We are definitely going to have a lot of fun from now on"

As Don massaged her tits, Sue felt unknown skills and knowledge stirring inside her mind. "Oh Dom, I think I'm assimilating Jane's seducing skills" Sue gasped. "I'm learning how to flirt and how to even incite desire in men, but don't worry. I will only use them on you to elevate our romantic relationship to new sexual levels" she moaned standing up again.

Dom watched in awe as Sue's body stance shifted. She stretched her torso backwards to thrust out her chest. He noticed she was placing more weight on one of her legs to shift her hips, enhancing the curve of them while making her derriere stick out. "Wow Sue. You just made yourself look more alluring without even thinking about it. Is that what you learned from Jane?"

"Indeed, but I not only got a piece of Jane's mind. There is knowledge from Kim's mind too" Sue said, trying to access those pieces too. Suddenly her eyes got wide open and she exclaimed "Oh wow! You won't believe what I'm learning from her. Workout routines, nutrition tips, everything I need to build my body strong and keep it healthy. I got the best of them" Sue laughed.

"Oh! Is that so? Do you want to try that knowledge?" Dom asked, pointing to the lifting bars.

"I will love it," Sue grinned. "Besides, I wanted to see how strong I have become"

Feeling confident, Sue tried to lift the bar Kim had been lifting moments ago. To her surprise and joy, she couldn't even feel the weight on it. "Wow! Kim wasn't joking when she said this was her warm up weight" Sue said holding the bar in the air only using two fingers. "Let's find my limit"

Under Sue's guidance, Dom prepared a powerlifting bar using compact discs to add weight without making it too bulky. "Are you sure about this Sue? You are about to lift almost 3 times my body weight" he said quite concerned as Sue was about to lift 600 lbs.

"One way to find it out" Sue said, grabbing the bar with two hands. Taking a deep breath, she tensed her muscles and Dom stepped back surprised to see those muscles pumping bigger and harder. "Here I go," Sue said, lifting the bar with everything she had. Suddenly she gasped as she almost launched the bar through the roof if she wasn't firmly holding it. "Oh my... I knew Jane's muscles must have helped, but this is twice Kim's warm up weight and I can lift it without problem" she said, grabbing the bar with one hand while flexing both arms.

"Let me help by giving you some counterweight" Dom smiled, jumping to grab Sue's bulging bicep. Sue only smiled admiring how adorable Dom looked hanging on her arm. The fact that she couldn't feel his weight was getting her quite worked up and horny. She needed him badly.

"Dom..." Sue started saying while biting her lips. "Will you mind if we go home early?"

"Really? I was hoping we could work out together. You know, to motivate each other" Dom said.

"Well, right now I do want to work out with you" Sue said before placing Dom back on the ground. Then, she lowered her body and whispered in her ears "But I had in mind a more intimate session. One where we can be naked doing some demaing cardio activities"

Dom blushed as he felt his penis getting quite uncomfortable in his tight shorts. "Well, if you put it that way, how can I say no to that kind of offer?" he grinned mischievously.

"Thank you. I promise to give you the work out of your life" Sue said gently grabbing the growing bulge in Dom's shorts. "Uhm... I can already feel your most important muscle getting bigger"

"Oh wow Sue! You are going to make me make a mess" Dom begged as she had Sue's breasts almost brushing against his face. She smelled so good and the warmth of her body was so enveloping and comforting. He never felt Sue so uninhibited and seducing. He liked it

"Don't worry babe. You are in good hands" Sue said, using her hands to drive Dom to the verge of an orgasm. Then she relaxed her grip to let him cool down enough. "Let's go home," she said.

"Oh Sue. I'm going to make you pay for that. I will make you scream my name all night long"

"I'm counting on that," Sue smiled. "I can't wait to know what this new sexy and curvaceous body of mine is capable of doing" she said, grabbing Dom's hands. "But tell me something and be honest. I heard Jane asking you if you were a breast or a butt man. Now that I have plenty of both, I wonder which you like the most. My huge fun bags or perhaps the cake in my trunk?"

Dom grinned as Sue put in a lot of effort to show off her highly developed attributes. She put her arm under her breast while bending forward a bit to enhance her butt. "I'm definitely a breast man"

Sue smiled and was about to reply when a woman said "Stop right there". She looked ahead and was surprised to see a woman as massive as her blocking her way. The expression on the woman's face showed she was quite angered. Sue couldn't imagine why until she noticed Kim and Jane shielding behind that woman. Jane's smug face could only mean problems for her.

"I don't know you and I have no resentment toward you, so please, step aside" Sue said.

"Oh, but I do have a problem with you. My name is Vivian and I'm the mother of the girls you stole from" Vivian said quite angrily. "So you better give them back their bodies before I have to teach you manners the hard way" Vivian said, cracking her knuckles in a menacing way.

"That is it mom. Teach that bitch that nobody messes with us. Put her on your leg and spank her like the little girl she is. I wanted her to cry and feel sorry for stealing my boobs" Jane said.

"Please mom. Don't listen to Jane. Sue is dangerous. We bullied her and now we are paying the price for our actions. Please mom. Let's go. I don't want you to end like us" Kim said.

"Vivian, listen to Kim. She made fun of me while Jane tried to steal my man. Karma redeemed me by being a bitch to them. So even if I want to give back their traits, which of course I don't, I won't dare to argue with whatever cosmic power saw fit that punishment for them" Sue said.

"I gave you a fair warning. Now, I will have to get real violent" Vivian said as she threw a punch with all her strength toward Sue. "What the?" she gasped as Sue stopped flat her strike.

Sue moved quickly with her free hand in front of her and her palm received the full power of Vivian's rage. Her muscles bulged a bit, surprising her as nothing had really challenged her so far. "Too late now" Sue moaned as she could feel Vivian's essence flowing toward her.

"What is this? What is going on?" Vivian gasped as she felt quite dizzy. To her surprise, she and Sue weren't the same height anymore and the gap between them was increasing. Sue's arm became more muscular while hers diminished. "I'm losing my muscles!!" she cried in despair

"Not only they" Sue moaned, putting her hand on Vivian's head as rippings sounds were heard. She enjoyed the horror in Vivian's face as she didn't look taller than a child compared to her.

Everyone saw how Sue blossomed out to spectacular proportions. Her thunder thighs were getting so buffed that Dom could hide under one of them. Her hips expanded yet her waist remained small. Her butt got rounder and juicy, but what drew most attention was her massive breasts swelling at an alarming rate. Suddenly, Sue's clothes hit their limits and exploded in pieces leaving her naked. Dom was almost hanging on her arm due how big Sue was getting.

"Oh no! She got mom too. It's all your fault Jane" Kim cried as she and Jane tried to get away.

"Oops! I guess my clothes weren't designed to hold the combined curves of 3 well endowment women" Sue giggled as she had bursted out of her clothes, yet her body continued growing. "You really should have listened to Kim's advice instead of being poisoned by Jane's words" Sue said with regret in her voice as the once impressive mother was no taller than her womanhood.

Sue waited for a kind of reply from Vivian. Perhaps a smirk comment, a pledge of forgiveness, but nothing. Vivian didn't speak a word even though her mouth was wide open. She was in total shock watching in disbelief at the rising muscular amazon in front of her.

"For what it matters, I'm sorry Vivian. I can understand that a mother will always try to protect her children, but a mother must first take care of their behavior. You didn't have a problem assaulting me even though your daughters were the ones that started all of this. And for that, you must pay a high price. The body you are so proud of will be mine" she moaned.

"Sue! My arm. You are going to yank it!" Dom complained as his feet were dangling in the air.

"I'm so sorry babe. I'm getting so big and so fast that I haven't realized it. Her, let me help you" Sue said as she picked up Dom like he was a small child and carried him in her arms.

"Mmm.. this so so much better" Dom grinned putting his arms behind his head to enjoy closely how Sue's breasts were swelling and outgrowing the alphabet. "WOW. I can get used to this"

"Enjoying the view ah?" Sue teased as if it wasn't because she had picked him up, she wouldn't have realized she was carrying him. He was as light as a feather and only got lighter as her level of strength increased. "Still, this is taking so long, so why don't we speed this up, ah?" she said, looking at the shrinking Vivian while seizing their connection and pulling it. "Oh yes! I can feel it. More muscles, more height, more boobs!!" Sue moaned as Vivian's body was sucked up.

Soon Sue felt her inhuman strength increasing as Vivian's also inhuman strength filled her bulging muscles. Her breasts inflated like weather balloons eclipsing any chance to see anything below her at a distance of at least 7 feet. Her body growing denser and wider like a tree fortunately, her growth stopped mere inches before her head crashed the ceiling above her.

"Oh Jane, I don't know how I can thank you"" Sue grinned looking at the scared little girl."Your mom was worth 2 women on her own. Thanks to her I doubled everything you and your sister gave me. Now, it is time for me and Dom to enjoy the generous gifts you have given us. So if you excuse me" she said, moving her enormous leg and watching how Jane covered herself.

With her growth completed, Sue lifted Dom to her eye level. "Hey lover boy. Did you miss me?"

"Terribly" Dom grinned looking at how happy Sue seemed to be. "I think red suits you well," he said, stretching his arm to touch the hair that was quickly shifting from blonde to red.

"MMm... I feel that is not the only remaining thing I'm getting from Vivian" Sue moaned while Dom gasped feeling his body being enveloped by Sue's tits.. Her nipples got huge and quite pert. "It seems a mother is always a mother," she said, feeling her breasts getting quite heavy.

"Oh my..." Dom said, patting Sue's wrecking balls and being mesmerized by the sloshing sound coming from them. He could feel how warm her breasts were getting, heating up his body. He blushed again as he couldn't avoid getting excited again. "Are you lactating?" he asked.

"I'm now" Sue said in quite a sexy voice before closing her eyes and puckered her lips waiting for Dom to kiss her. When he didn't do it, she opened them again to find that her humongous breasts made it impossible for him to get closer to her. "Oh baby. Did mommy get too big for you?" she said forcing more of Dom into her cleavage.. "I hope you are hungry because you will have a hard time draining this milk tankers attached to my chest" she grinned mischievously

"I can't believe it!" Dom said, feeling the tender embrace of Sue's tits as they swallowed him up. "I have heard of breasts being more than a handful, but these are definitely more than a handful" Dom laughed as she suspected one of those breasts had more mass than his whole body. "I love you Sue. You are a living fantasy. You must be the tallest, strongest and bustiest woman in the world. I bet that you can easily have any man dying to please you" Dom said with a hint of sadness in his voice. "Now that you are so great, would the old little Dom be enough?"

"Are you stupid or what?" Sue said, shocking her head. "There is no other man for me than you silly. You loved me when I was small and fragile. Now is my turn to love no matter how small and weak you are compared to me. And to be honest, that includes everyone now" she laughed.

"So, what are you waiting for?" Dom said, stretching himself to kiss Sue's lips. She had gotten so big that his two lips weren't enough to cover one of hers. When he broke the kiss, he noticed Sue's face was quite red. She was getting quite aroused by their size difference as well as he was. "Let's get out of here so we can try out this hot body of yours" he said quite confidently.

"That's the spirit baby. I'm all the woman you would ever need and more. I expect no less than your best to satisfy this incredible body I got for you" she teased as she walked away leaving the three drained women watching helplessly how she walked out with their combined traits.
